

THE NATIONAL MS SOCIETY

We are a movement by and for people affected by multiple sclerosis.

Until we end this disease forever, we will do whatever it takes to accelerate breakthroughs.

We believe

That we are stronger together.

That nobody should face MS alone.

We will be by your side every step of your journey—from day one.

We'll be your partner through the challenges, sharing ideas and finding solutions.

We believe

That people live better lives when they feel understood and supported.

It's hard to hear, "but you look so good!" when you feel anything but—or to feel like MS is the only thing people see.

We will be there for your loved ones so they can be there for you.

We'll shine a light on what it means to live with MS until the rest of the world understands.

We believe

That everyone deserves affordable medications, a doctor who knows MS and a healthcare system that puts you first. You should never have to choose between paying your bills and getting the care you need.

We will make sure your voice is heard, loud and clear.

We'll be your champion from the halls of Congress to city hall.

We believe

That you should be able to plan for the next 10 years—even the next 10 minutes—without MS getting in the way. Complex problems take many solutions coming together in just the right way.

We will be there to help you piece it all together.

We'll work every day so you can get what you want from life, even while living with this disease.

We believe

That no one else should face the fear and uncertainty of an MS diagnosis—and that those who have MS should get back what they've lost.

Curing this disease takes a global effort.

We will fund the most promising leads and gather the brightest minds to find a cure as fast as possible.

We'll be unrelenting until the very end.

We believe

That we all have something to contribute—whether it's time, money, connections or sheer passion. There is strength in numbers.

We are calling on you to join us.

Find your place in this movement. We need you. **Together, we will create a world free of MS.**
